💡 Responsible, efficient professional and excellent colleague looking for a position as a developer. I aspire to deploy my technical skills and soft skills within the IT sector.

- ❖ I consider myself a responsible, thoughtful and orderly person.
- ❖ Eager to progress and live new experiences that help me acquire new skills.
- ❖ Willing to any type of challenge and open without prejudice to anything or anyone.

From my work experiences, what I find the most is the ability to adapt to different work environments and the ability to listen and empathize not only with my colleagues, but also with clients for whom I have been providing different types of services.
